

# [PRESS RELEASE]

**DATA FROM A RECENT MULTI-CENTER  
PILOT STUDY UTILIZING  
AXIOM WORLDWIDE'S DRX9000™  
REVEALS A DRAMATIC SUCCESS  
RATE OF 88.9%**

**Clinical results to be presented at the 2007 annual Conference of the American Academy of Pain Management.**

**Tampa, FL September 5, 2007:** The clinical results of an IRB-approved prospective, multi-center, phase II, non-randomized pilot study utilizing the DRX9000™ will be presented at the 18<sup>th</sup> Annual Clinical Meeting of the American Academy of Pain Management in Las Vegas, NV September 27-30, 2007. The study, authored by Dr. John Leslie of The Mayo Clinic was designed to evaluate the effectiveness and safety of the DRX9000 in the treatment of chronic lower back pain. After two weeks of treatments on the DRX9000 there was a 50% reduction in pain scores and upon completion of the entire six week protocol an amazing success rate of 88.9% was documented. The patients also reported an improvement in their Oswestry Disability score. Abstracts and copies of the presentation will be made available following the release of the study data at the American Academy of Pain Management.

*The study was partially funded by Axiom Worldwide*
